### THE WHAT

Coup is an agency representing photographers who's work speaks for itself. We're co-owned by our photographers, and aim at rethinking the way we work together with our clients.

### THE WHY

Our photographers are already known for pushing the best of imagery, both stills and films. They evolve, photography evolves, clients evolve, so the way we get the job done should evolve as well.

We want to focus on what's actually needed and slash the stuff that isn't. Coup aims at being a proponent for good photography and a voice for change within the business. We've got some bold ideas and can't wait to share them.

But firstly it's about jaw dropping, awe inspiring, surprising and well composed stories told through the lens of the beholder. Make sure you look through our portfolios and have a chat with Jon about your next project.

HASLE LINJE — BRAND & WEBSITE FOR AN EMERGING NEIGHBORHOOD IN OSLO

SEVENSIX — ORIGINAL CONCEPT BRAND AND UX/UI BOARDS FOR A TENNIS TRAINING CONCEPT. (RAISED FIRST ROUND OF FUNDS)

PROGRAMINFORMASJON

FRESH DRESSED is a fascinating, fun-to-watch chronicle of hip-hop, urban fashion and the hustle that brought oversized pants and graffiti-drenched jackets from Orchard Street to high fashion's catwalks and Middle America shopping malls. Going deep to Southern plantation culture, the Black Panther Party and Little Richard, director Sacha Jenkins' music-drenched history draws from a rich mix of archival materials and in-depth interviews.

### Why workplace equality is important

Building an inclusive organisational culture for all genders is not only the right thing to do, but has been proven time and again to be the **smart thing to do**.

- Increased profitability
- Meet stakeholder demands
- Improved innovation capability
- Talent attraction and retention
- Increased trust through greater transparency

It will take us **136** weeks to close the gender pay gap, if we don't act now.

Our product empowers your workplace to identify and measure equality gaps, and to develop evidence-based solutions to close them.

### Identify

We support you in collecting the right data so that you can learn where to improve.

- Collect the data you actually need to enable the right analysis
- Organise the data to mirror how your organisation is structured
- Categorise your data in a way that uncovers common inequality patterns
